Good evening Frances and David. Unfortunately, I wasn't able to upload the requested information into the below link. However and since Louisiana Department of Environmental Quality (LDEQ) responses are in a format that can be submitted electronically, I've included the information and/or response(s) as attachments to this email. A total of eight (8) attachments should have transmitted with this email. Additionally, the original hard copy will be submitted via the postal service to David's attention with a copy being filed in each of the five (5) facilities files with LDEQ.

Please feel free to contact me or Lourdes if you have questions or require additional information. Thanks, Celena.

Subject: External SP Sites

Jeff – We have an external SP site that can be used for states to upload files, kind of like a drop box. [R6 AIR Program External Collaboration](#)

Texas and Louisiana each have separate sub-sites, and would not be able to see files from the other state.

I believe all I need is the email of the person to upload the files, then I can invite them to the site to start uploading.

We also have the FTP site capability that we were just discussing.
